MY LIFE COACH CAREER ASSESSMENT

CAREER MATCH REPORT

SAMPLE REPORT — Aarav is a fictional student. This shows what a Career Match Report looks like; your child's report is built from their own answers.

STUDENT	ASSESSMENT DATE	REPORT ID
Aarav	**12 November 2026**	**SAMPLE REPORT**

WHAT THIS REPORT COVERS

Based on all 36 picks in the My Life Coach assessment, Aarav's strongest interests are Investigative and Artistic. The pages that follow give the full six-type profile and what it tends to mean day-to-day, every career in the My Life Coach library ranked against it, the stream and subject choices that fit, and a roadmap preview for the top three careers.

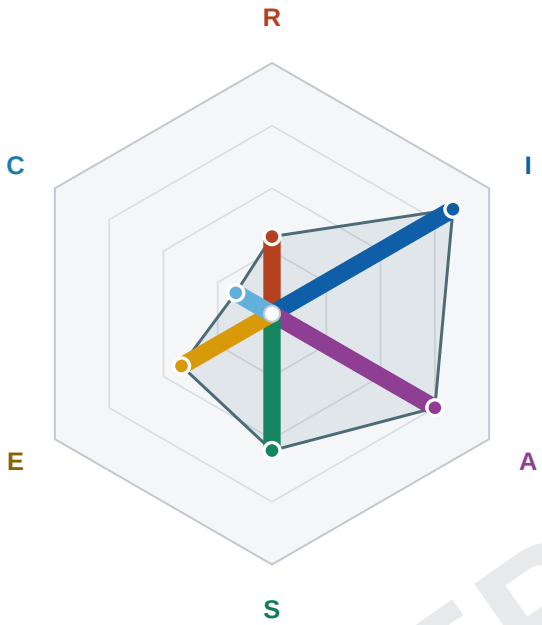
WHAT THIS REPORT IS NOT

Every match in this report is based on interests — what Aarav tends to enjoy, not how capable Aarav is. Cognitive aptitude, behavioral profile and what drives them are measured by the free Deep-Dive, and the Complete Career Report uses them to explain why each of these careers fits — see the last page.

SAMPLE REPORT

Your Full Interest Profile

Realistic, Investigative, Artistic, Social, Enterprising and Conventional — all six scores, ranked strongest first.



- **Investigative** — 10/12
- Artistic — 9/12
- Social — 6/11
- Enterprising — 5/12
- Realistic — 4/13
- Conventional — 2/12

PRIMARY
Investigative
10/12 · 83%

SECONDARY
Artistic
9/12 · 75%

THIRD
Social
6/11 · 55%

Strengths & Growth Angles

Aarav's strongest interests are Investigative and Artistic — here's what that combination tends to suggest.

WHAT THIS SUGGESTS

Aarav tends to enjoy analysing information, asking why something works, and reasoning through open-ended problems; also original expression — writing, design, music or performance — and work without one fixed template.

TYPES OF PROBLEMS YOU MAY ENJOY

problems that reward careful reasoning — data, patterns, causes and effects.

ENVIRONMENTS THAT MAY APPEAL

research or analysis-driven settings that reward independent, in-depth thinking, along with creative, flexible settings that leave room for a personal style or interpretation.

WHERE GROWTH TAKES MORE CONSCIOUS EFFORT

loosely structured settings with ambiguous goals and no clear process to follow.

WHAT THIS MAY LOOK LIKE IN PRACTICE

- Digging into how or why something works instead of stopping at the surface explanation
- Being drawn to subjects like science, mathematics, or logic-based problems
- Preferring to research a topic in depth before forming an opinion on it
- Choosing to present a project in an original format rather than the standard one
- Being drawn to subjects like art, music, literature or design

SAMPLE REPORT

Careers That Match Aarav's Interests

Every career in the My Life Coach library, ranked by how closely its interest profile matches Aarav's six scores. A strong match means the day-to-day work lines up with what Aarav enjoys — not yet whether the ability is there too.

MATCH #1 · 8/10
Graphic Designer
Creates visual concepts for branding, digital media, and print.

MATCH #2 · 8/10
Architect
Designs buildings and spaces, balancing aesthetics, function, and structure.

MATCH #3 · 8/10
Content Creator / Filmmaker
Produces videos, films, or digital content for an audience across platforms.

ALL CAREERS, RANKED

1. Graphic Designer	**8/10**
2. Architect	**8/10**
3. Content Creator / Filmmaker	**8/10**
4. Psychologist / Counselor	8/10
5. Doctor (Physician)	6/10
6. Teacher / Educator	6/10
7. Data Scientist / AI-ML Engineer	6/10
8. Software Engineer	6/10
9. Sales & Marketing Professional	5/10
10. Entrepreneur / Business Owner	5/10
11. Civil Services Officer (IAS/IPS etc.)	4/10
12. Mechanical Engineer	4/10
13. HR / People Operations Manager	4/10
14. Chartered Accountant	3/10

Stream Direction & Subject Choices

The stream choice after Class 10 decides which careers stay open. Here is how Aarav's interests line up with each stream, and the school subjects the top career matches call for.

Strongest fit: **Humanities** (82% match). History, political science, psychology, languages and the arts — people, ideas and expression.

ALL STREAMS

Humanities — 82% match

History, political science, psychology, languages and the arts — people, ideas and expression.

Science — 56% match

PCM or PCB — engineering, medicine, research, architecture and the pure sciences.

Vocational / Skill-based — 44% match

Applied, hands-on tracks — design, hospitality, technical trades and skill-certified pathways.

Commerce — 25% match

Accountancy, business studies and economics — finance, management and enterprise.

SUBJECTS FOR THE TOP CAREER MATCHES

Graphic Designer	Art / Fine Art, English, Computer Applications
Architect	Mathematics, Physics, Art / Fine Art
Content Creator / Filmmaker	English, Media Studies (if offered), Computer Applications
Psychologist / Counselor	Psychology (if offered), Biology, English
Doctor (Physician)	Biology, Chemistry, Physics
Teacher / Educator	Subject of specialization, English, Psychology (helpful, not required)

Stream direction is based on interests alone. A counsellor and the Complete Career Report also weigh aptitude and personality before a final choice.

Roadmap Preview: Top 3 Careers

A first look at what each of the top matches takes — eligibility, entrance exams, courses and where to start. The Complete Career Report turns this into a full step-by-step plan.

1. Graphic Designer

ELIGIBILITY	Class 12 in any stream; a strong portfolio often matters more than the stream
EXAMS	UCEED · NID DAT · NIFT Entrance
COURSES / PATHS	B.Des in Communication/Visual Design · Portfolio-based design schools
START WITH	Build a habit of sketching, photography, or digital art. Learn design tools (Adobe Photoshop, Illustrator, Figma).

2. Architect

ELIGIBILITY	Class 12 with Mathematics; a qualifying NATA or JEE Main Paper 2 score
EXAMS	NATA · JEE Main (Paper 2)
COURSES / PATHS	B.Arch
START WITH	Build skills in drawing, spatial reasoning, and design software basics. Take Math in grades 11-12 (required for architecture entrance).

3. Content Creator / Filmmaker

ELIGIBILITY	Class 12 in any stream; a portfolio or audience often matters more than formal qualification
EXAMS	FTII Entrance · Portfolio-based admissions
COURSES / PATHS	Film/Mass Communication degree · Self-taught + portfolio route
START WITH	Start creating short videos, photography, or writing consistently. Learn editing tools and basic storytelling techniques.

SAMPLE REPORT

What the Complete Career Report Adds

This report matched careers to what Aarav is drawn to. The Complete Career Report adds the results of the Deep-Dive Assessment — three short, free modules on reasoning, behavior and motivation. Careers stay ranked on interests; those results explain why each one fits — plus a full step-by-step roadmap.

Why Each Career Fits

The same careers, still ranked on interests — with aptitude, behaviour and motivation explaining each fit.

Cognitive Aptitude

Fifteen right/wrong questions across numerical, verbal and spatial reasoning — a real measure of reasoning patterns.

Behavioral / Personality Profile

Thirty scenario-based questions across the five OCEAN traits — how this profile tends to approach structure, people and pressure.

What Drives Me

Fifteen self-rated motivators — what makes a subject, an activity or a future path feel worthwhile.

Complete Career Report

Available as the next step on the My Life Coach results page — it builds on these exact same interest scores, so nothing needs to be retaken, and what was paid for this report is credited towards it.

This profile is a snapshot, not a verdict — interests keep developing through the school years, and this assessment is a self-report tool for exploration and conversation, not a clinical or diagnostic instrument.
